EDUCATION

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT)

2023 – Present

B.Tech in Computer Science and Engineering | CGPA : 8.54/10.0

Jaipur, Rajasthan, India

R.K. Public School

2020 – 2023

Rajasthan Board | Class X: 93% | Class XII: 85.6%

Jaipur, Rajasthan, India

TECHNICAL SKILLS

Programming Languages: Java, Python(Basic), JavaScript, SQL

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

AI/ML Tools: Scikit-learn, Imbalanced-learn, Pandas, NumPy, Matplotlib, Seaborn

Developer Tools: VS Code, Git, GitHub, Postman, Jupyter Notebook, Google Colab

PROJECTS

CineVerse 📄 | React, Node.js, Express, MySQL, Tailwind CSS, Python

Sep 2025

- Built an AI-powered **Movie Recommendation and Review Platform** with modules for **sentiment analysis**, **fake review detection**, and **hate speech classification**.
- Trained on **1.2M** records for recommendations, **50K** for sentiment (91% accuracy), **700K** for hate speech (86% accuracy), and **40K** for fake review (88% accuracy).
- Collaborated with a team of four, integrated **TMDB API**, and deployed using the **MERN stack**, implementing structured API calls and asynchronous data fetching to deliver a responsive user experience.

ChatNRJ 📄 | React, Node.js, Express, Socket.io, MongoDB, JWT, Tailwind CSS

June 2025

- Engineered a real-time **community chat web application** with secure authentication, enabling active user filtering with online/offline status tracking.
- Developed advanced messaging features including **“Delete for Me”** and **“Delete for Everyone”**, improving user control, privacy, and engagement.
- Strengthened application security by implementing **protected routes**, **token verification middleware**, and **role-based access control** for message operations.

Productr 📄 | React, Node.js, Express, MongoDB, Nodemailer, JWT

May 2025

- Developed a **full-stack product management system** as part of a MERN internship assessment, supporting product creation, listing, and status management.
- Implemented **OTP-based authentication** using **Nodemailer**, enabling secure user signup and login without passwords.
- Translated **Figma UI designs** into a scalable full-stack architecture by designing a custom **database schema**, backend APIs, and modular UI components aligned with real-world product workflows.

INTERNSHIP

Playtown Studios 📄

July 2025 – August 2025

AI/ML Intern

Jaipur, India

- Implemented and compared **4 classical ML algorithms** (Random Forest, Decision Tree, Naive Bayes, Logistic Regression) using Scikit-learn and Imbalanced-learn on datasets of **50K+ records**.
- Enhanced overall model accuracy by **14%** through parameter tuning and data balancing techniques.
- Gained hands-on experience in Python, Pandas, NumPy, and Matplotlib while optimizing end-to-end ML workflows over a span of 45 days.

Kistechnosoftware 📄

July 2024 – August 2024

Web Development Trainee

Jaipur, India

- Completed a 15-day web development training covering HTML, CSS, JavaScript, PHP, and MySQL.
- Built small-scale applications and practiced integrating front-end and back-end functionalities.
- Used AI-assisted coding tools to enhance development speed and accuracy.
